25X1A9a 25X1A6b 1. Mr. [] discussion [] on SB's [] course in interpersonal communications was received with interest. On the spot efforts to determine its possible adaptability to either BOC or AOC were deferred until [] can spare an appropriate officer to take the course. However, subsequent discussion among OTR officers leans tentatively toward considering it or something like it as a postgraduate course for three or four officers carefully selected from each BOC. We continue our interest and attention in this course.
